

SELF-SUPPORTING CAST IRON SLATS

- Self-supporting = low mounting costs
- Anti-slip surface due to the special surface
- T-shaped ribs ensures optimum manure passage
- Large cleaning opening
- Hard surface and minimum surface area
- Long lifetime - good for both environment and economy
- Same bearing surface and height as triangle slats, that can easily be replaced
- Small surface = low emission

SELF-SUPPORTING CAST IRON SLATS

Health conditions in focus

For use in partly slatted farrowing pens

ACO Funki offers cast iron gratings made of spheroidal iron with 10 mm, 13 mm and 16 mm slots for use in partly slatted farrowing pens.

The gratings are longtime approved. Gratings of spheroidal iron have better “micro“-roughness than plastic gratings. The advantage is a better stand of the sow without minor comfort.

There is a special type of gratings with anti-slip dents. The advantage is an optimal sure-footed surface.

TYPE OVERVIEW	
FARROWING PENS	Dimensions, mm
	800 x 400 x 30
	900 x 400 x 30
	1000 x 400 x 30
Beam: 10 mm Slot: 11 mm	1100 x 400 x 30
	1200 x 400 x 30
	1400 x 400 x 30
	1600 x 400 x 30
WEANERS AND WEAN-TO-FINISH	
	1200 x 400 x 30
	1400 x 400 x 30
Beam: 12 mm Slot: 13 mm	1600 x 400 x 30
	1800 x 400 x 30
	2000 x 400 x 30
FINISHERS	
Beam: 30 mm Slot: 15 mm Cleaning opening: 40 mm	1600 x 400 x 30

HEALTH CONDITIONS IN FOCUS

- Slightly rough surface makes the slat slip-resistant
- T-shaped ribs ensures optimum manure passage

MINIMUM WORKING TIME CONSUMPTION

- Large cleaning opening
- Hard surface and minimum surface area

ENVIRONMENT AND ECONOMY

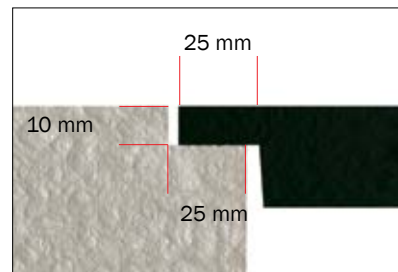

- Long lifetime - good for both environment and economy
- Same bearing surface and height as triangle slats, that can easily be replaced
- Self-supporting = low mounting costs
- Small surface = low emission

Accessories

We have several types of covers and fittings for cast iron slats. Contact us for a complete overview and price list.

Our cast iron slats are specially designed to fit the cover rib. Easy mounting by means of allen wrench.

Cast iron slats have the same bearing surface and height as for ex. triangle slats, that can easily be replaced.

Subject to changes in materials and design.
