

INN-O-WALL

Weaners, Wean-to-Finish, gilts & finishers

- As a standard delivered with a strong stainless steel trough for all pig sizes
- The trough is designed to prevent feed waste
- Easy to mount
- The bended and closed edges ensure maximum hygiene
- For piglets the liquid feeding wall can also be delivered as ad lib with stainless steel troughs and head separations
- More eating time, and thereby more pigs per eating place

I INN-O-WALL LIQUID FEEDING WALL I

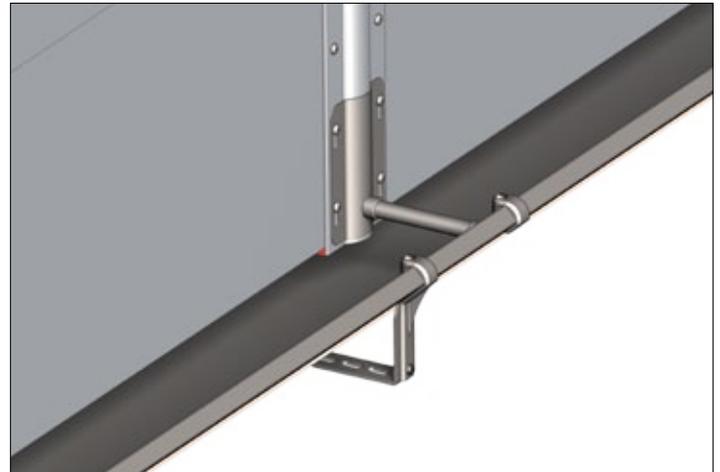

Well thought-out and production safe..

Liquid feeding wall with integrated downpipes, with the same diameter as standard liquid feeding pipes and without a T-part, which may stop the feed in the outlet. This means quick feeding, low aggression level and uniform pigs.

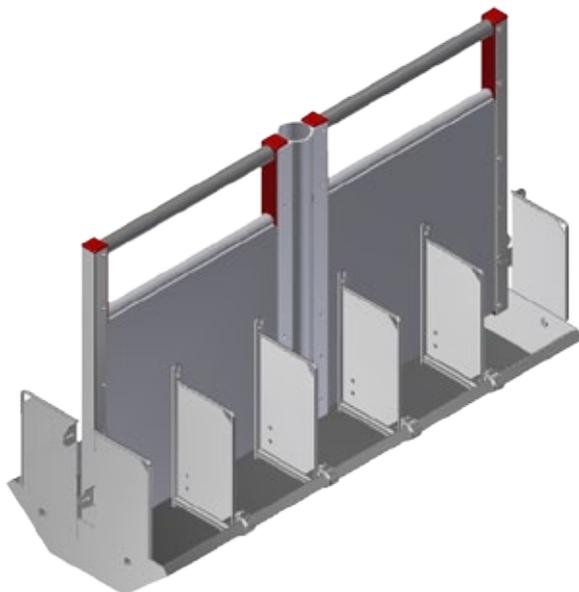

FACTS

U-profiles:	1,5 mm stainless steel
Board profiles:	Tight fitting 35 x 250/500/750 mm
Downpipe:	1-2 pcs. 63 mm plastic pipes
Trough:	1 mm stainless steel

	Weaners	WTF and finishers	Gilts
Length, cm	118-600	150-600	150-600
Partition height from floor:	75 cm	100 cm	115 cm
Trough width:	43 cm	48 cm	48 cm
Trough height:	12 cm	14,4 cm	14,4 cm
Volume per meter:	38 litres	49 litres	49 litres

Liquid feeding wall with integrated downpipe

Bioline troughs for liquid feeding of weaners - with head/shoulder partitions, 5/7/9 eating places per pen

For liquid feeding walls without integrated downpipes a rear plate for supporting legs is mounted

Subject to changes in materials and design reserved.
