

FT-30 FARROWING PEN

From birth to 30 kg

- Very flexible; can be used from birth to 30 kg
- Less transportation of pigs, less stress, better growth
- Suitable for production of welfare pigs
- Extra large piglet nest; place for up to 25-30 kg's pigs
- Height-adjustable barrier plate in the piglet nest

FARROWING PEN FROM BIRTH TO 30 KG

FT-30. MANY YEARS OF EXPERIENCE

FT-30 Farrowing pen

This farrowing pen is developed according to Norwegian preferences for loose, lactating sows. The result is a highly flexible pen that can be used from birth until the pigs reach 30 kg.

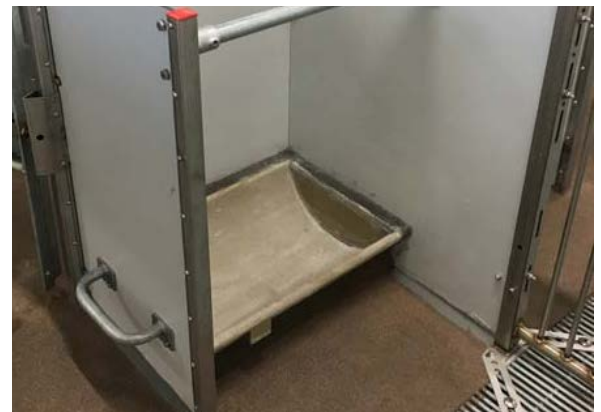

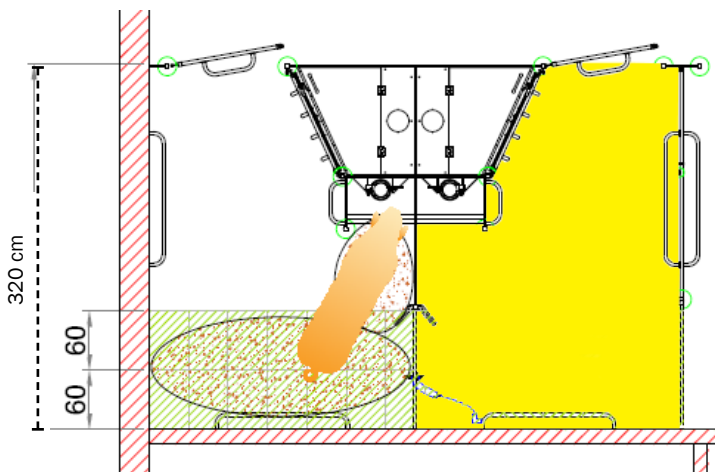

The large climate corner accommodates the piglets until they reach approximately 25-30 kg. The pen includes a climate corner with a lid made of fiberboard, available with or without a hole for a heat lamp.

FT-30 = BIRTH TO 30 KG

With the "birth to 30 kg" system, the piglets do not need to be moved to a climate barn, significantly reducing cleaning compared to traditional production. At the same time, the piglets are spared from stress, leading to better growth and feed efficiency. This pen is particularly well-suited for specialized welfare pig

Would you like to have an option for fixating a sow in your FT-30 pen?

Optimal utilization of the FT-30 farrowing pen

DIFFERENT SOLUTIONS FOR THE FT-30 WITH A LENGTH OF 320 CM

Diameter, cm	Pen's area, m ²	Sow's area, m ²	Sow's area, %
240	7,68	6	78%
250	8	6,4	79%
260	8,32	6,7	80%
