

INN-O-CRATE® FARROWING PEN

Multi-adjustable farrowing box

- Many weaned pigs
- High weight at weaning
- The farrowing box is adapted to the anatomy of the sow and can be adjusted to the size of the sow. This means safe farrowing and lying down/getting up behavior
- The design of the box side ensures that the piglets get unrestricted access to the udder
- Vipable wings minimize the risk of piglets crushing
- Smooth, easy to clean surfaces and rounded corners minimize the risk of dirt accumulating
- Strong and well-proven construction that has taken the starting point in optimum overview and access for staff

INN-O-CRATE® FARROWING PEN

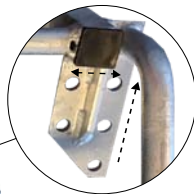

Traditional farrowing pen with multi-adjustable farrowing box
